SECTION C

APPLICATION FOR GEOSCIENCE PROJECT FUNDING

Title of project					
Description of project					
Objectives, justification (max 2 A4 pages)					
Specific use / application of requested funds (max 2 A4 pages)					
Specific use / application of requested funds (max 2 A4 pages)					
Project risks (possible reasons why funds may not be utilised for intended purposes) (max 1 A4 page)					
Itemised project budget with sufficient detail for committee to evaluate other sources of funding					
<table border="1" style="width: 100%; border-collapse: collapse;"> <tr> <td style="width: 35%;">Other potential or confirmed sources of funding: Please indicate if pending or confirmed.</td> <td rowspan="3"></td> </tr> <tr> <td>Potential funding and amount:</td> </tr> <tr> <td>Confirmed funding and amount:</td> </tr> </table>	Other potential or confirmed sources of funding: Please indicate if pending or confirmed.		Potential funding and amount:	Confirmed funding and amount:	
Other potential or confirmed sources of funding: Please indicate if pending or confirmed.					
Potential funding and amount:					
Confirmed funding and amount:					
Terms and Conditions of the 35IGC Legacy Fund grant:					
<p>The following guidelines should be borne in mind.</p> <ul style="list-style-type: none"> • The main focus of Legacy related projects should be; geoheritage, mining heritage, geotourism, geoscience education, and geoconservation. A holistic approach to geoheritage would be an advantage. For example, the link between archaeology and landscape development, geology, development of life, ecosystems and history are important. • Links to an existing World Heritage Site and other outstanding geological sites are of higher priority. Proposals that aim to create products in support of facilities housed in a national- or provincial park, world heritage site or any other established heritage or tourism-focused facility, must provide written support from the controlling institution. • Development of interpretative information and educational centres including descriptive plaques, display boards and brochures. • Support of museum displays and exhibits with geoheritage and mining heritage as central themes. • Upgrading of field guidebooks prepared for 35th IGC and production of additional guidebooks or brochures for geotrails, hiking trails and roadside geology trails. • Development of geoheritage travel parks and facilities or publications in support of regions with established geotourism and tourism hubs. • Involvement of local communities and management structures in geoheritage projects. 					

- Assistance in training of field guides and production of educational field manuals.
- Any other project which could have some connection or relevance to the above.
- No part of the grant can be used to cover tuition costs.
- Grants are made to the institution with whom the applicant is affiliated. Applicants from countries outside of Africa will be considered only for projects within Africa and with significant long-term association with a relevant African institution, including collaboration with Africa-based scientists. In addition, such applicants must provide reasons why their research is not supported by their own institutions.
- Each application is considered individually and 35IGC Legacy Fund does not enforce strict directives as each case has its own merit. Therefore, if you are unsure whether your application qualifies for consideration, please contact the Chair, 35IGC Legacy Fund.
- Please provide a total project budget, itemised, justified and limited to two pages, listing the status, source and amount requested/available from all other funding proposals (confirmed, pending, planned) for this work. Explain whether the project will be able to proceed if some or all of the additional pending and planned grants are not awarded. List in separate columns those budget items requested from 35IGC Legacy Fund and all other confirmed, pending and planned sources. Provide a clear motivation of the necessity of each budget item to your research. Do not request items that are not related directly to the completion of your project.
- The applicant must be affiliated to a registered / regulated corporate entity (Pty Ltd/NPC), and must provide proof of this affiliation. The entity must also have a management, a board, and bank account in place.

Declaration by applicant.

I, the undersigned, agree to abide by these rules: to use the funds for their designated purpose only, to pay back any unused funds, to apply for or notify 35IGC Legacy Fund for major or minor changes respectively to the project, to acknowledge the contribution of 35IGC Legacy Fund, and to pay back research funding if the project is not completed. I also agree to alert 35IGC Legacy Fund if my institution deducts administrative fees (cost recovery, overhead, etc.) from this grant as this is strictly not allowed by 35IGC Legacy Fund.
